Exodus Housing is a small agency with a big mission. We provide low-income households who are fleeing/attempting to flee domestic violence (DV) with connections to permanent housing, monthly rental assistance, and ongoing case management customized, supportive services. Our overall goal is to stop the cycle of DV and homelessness by working quickly to house families and then offer case management services that increase their ability to gain independence and retain the housing on their own long-term. We meet this goal by rapidly connecting families to private landlords who rent units within the fair market rent guidelines of Pierce County. We provide funding to pay for all move in costs (first/last month's rent, deposit, application fee, and utility deposit) and ongoing monthly rental assistance. Our case management (CM) services are guided by a progressive and individually tailored engagement model that is unique to each household served. All families create a long term housing stability plan that helps them project how to increase their ability to be stable and self-sufficient long-term. This plan is a frame of reference for all future case management meetings that consists of monthly goal and budget setting. Families are also given connections to referrals and community resources that further help with long-term stability. Rental assistance continues until the household is ready to exit the program and the average length of stay in our program is approximately 10 months.

EMPOWERING FAMILIES...
 STRENGTHENING COMMUNITIES...

Puyallup, WA 98372

Ways to Help

Host an Essential Needs Drive

We need your help to convert empty apartments into a functional home. Families often flee and are forced to leave all belongings behind so we collect items for them such as shampoo/conditioner, laundry/dishwasher soap, toothbrushes, toothpaste, toilet paper, towels, dishes, pots/pans etc.

You may also send a donation to Exodus Housing, which will go straight to the families for direct Services and housing costs.

Donations can be sent to (address is confidential)

Client success story:

We had a star client who exited our program during 2023 with retained permanent housing and increased income. Her story begins with lots of trauma and abuse, some of which was witnessed by her kids. Her abuser also trafficked her, but after awhile she was able to escape with her children. She ended up in a shelter until we were able to find her affordable housing in our program. Though she was safe and in a better situation, she was also scared because she had never had her own place before. While in our program, our client was able to get trained doing lashes and nails, which was paid for through an internship and our private funding. We also purchased some equipment for her, so she could get started in her new career. Our client was able to access resources to help with increased stability, as well as increase her income, gain a positive rental history, attend counselling, and manage her mental health. To this day, she and her kids are happier than they ever have been and she is thankful for our support!

***A SPECIAL THANK YOU TO ALL OUR
INDIVIDUAL DONORS WHO HELPED
MAKE THE LIVES OF ALL THE FAMILIES
WE SERVE BETTER!***
