# 2017 Annual Report

**Mission Statement: Encouraging independence, empowerment and self-sufficiency for families fleeing domestic violence, by providing access to permanent housing, tailored services and community resources.**

Exodus Housing is a small agency with a big mission. We provide low-income households who are fleeing/attempting to flee domestic violence (DV), assistance with access to permanent housing, monthly rental assistance, and ongoing case management supportive services. Our overall goal is to stop the cycle of DV and homelessness by assisting families with housing and case management services that increase their ability to be self sufficient and retain the housing on their own. We meet this goal by connecting families to private landlords that rent units within the fair market rent guidelines of Pierce County. Families are rapidly housed to include assistance with funds that pay for all the move in costs (first/last month's rent, security deposit, application fee, and utility deposit) and monthly rental assistance. Our case management services are enriched in progressive engagement, which is a tailored service model that is unique to each individual household served. Families increase their self-sufficiency by creating a housing stability goal and budget plan, as well as pursue referrals and community resources for outside services that promote long-term stability. Services and rental assistance continues until the household is financially stable to exit the program and retain the housing without any assistance. The average length of stay in our housing program is approximately 6-9 months.
